

## **FOR IMMEDIATE RELEASE**

### **Park Vendor Review: Revolutionizing Vendor Research and Discovery for Campground and RV Park Owners**

In a significant development for the outdoor hospitality industry, Park Vendor Review proudly announces the launch of [ParkVendorReview.com](http://ParkVendorReview.com), bringing a new level of empowerment to campground and RV park owners. The platform is poised to become an indispensable tool, offering the first digital platform created for campground and RV park owners to search, save, and review vendors, streamlining the decision-making process. Park owners are also able to connect directly with vendors, requesting additional information, price quotes, and product demos.

Central to Park Vendor Review's value proposition is its focus on enabling owners to make educated, informed decisions for their businesses. "Park Vendor Review is not just a directory; it's a tool to empower campground owners in their journey towards successful business management," said Todd Sabo, Founder and President of Park Vendor Review.

Amir Harpaz, owner of Torrey Trails RV and Golf Resort and Park Vendor Review User, stated that "having experienced the repercussions of choosing the wrong vendor in the past—leading to wasted time, court fees, and unnecessary headaches—Park Vendor Review is a game-changer. The platform provides park owners like me the invaluable ability to make informed decisions about vendors, and it also empowers us through ratings, reviews, and discussions by peers who can share their own vendor experiences. It's not just about saving time and money; it's about preventing costly mistakes. Park Vendor Review addresses a critical need in our industry and I'm excited to be a part of this positive change."

Along with the website launch, Park Vendor Review is offering users free access to PVR's "Reservation Systems Buyer's Guide." This resource is a comprehensive, data-driven guide to property management systems (PMS) software, offering objective insights to assist campground and park owners in navigating their PMS software purchasing decisions. The guide is designed to simplify the complex landscape of software options, ensuring owners can choose solutions that best fit their specific needs.

The platform also extends a warm invitation to vendors in the outdoor hospitality industry, allowing them to claim their listings for free. This initiative fosters a comprehensive vendor directory, critical for informed decision-making.

"Vendor decisions made simple" is not just a tagline—it's Park Vendor Review's commitment to the campground and RV park community. For more information and to access the Reservation Systems Buyer's Guide, visit [ParkVendorReview.com](http://ParkVendorReview.com).
